Results-driven **Business Analyst** with **2+ years of experience** at **Avadhesh.co**, a pioneer in **Corporate Functions as a Service (CFaaS)**, collaborating closely with **CEOs and founders** on strategic and operational initiatives. Skilled in building automated data pipelines using **SQL**, **Power BI**, and **Python** for large-scale data extraction, reporting, and analysis. Led market intelligence and sales support initiatives while mentoring **20+ interns**. Delivered measurable outcomes including **15% revenue growth**, **40% faster reporting cycles**, and **95% CRM data accuracy** across **10,000+ recordss**.

Work Experience

Business Analyst — Full-time Mar 2024 – Present

Avadhesh.co | Hyderabad, India

Avadhesh.co is the first CFaaS (Corporate Functions as a Service) provider, enabling businesses to outsource core corporate functions to accelerate growth and operational efficiency.

Executive Collaboration & Strategy

- Worked directly with **CEOs and founders** of client companies, translating high-level business goals into structured analytical strategies and operational road-maps.
- Delivered comprehensive executive-level reports on **sales performance, market intelligence, and KPIs**, enabling leadership to make faster, data-backed strategic decisions.
- Identified and prioritized growth opportunities aligned with **ROI targets and cost optimization** goals across multiple client verticals.
- Facilitated cross-functional alignment between sales, operations, and leadership teams to ensure consistent execution of business strategies.

Market Intelligence & Data Pipelines

- Architect-ed and deployed an automated **Python data pipeline** integrating SQL, BeautifulSoup, NumPy, and Excel for scalable, end-to-end data collection.
- Systematically scraped competitor pricing, real-time market signals, and qualified sales leads across multiple industry verticals.
- Conducted in-depth **competitor benchmarking and pricing gap analysis** that directly shaped go-to-market strategies and product positioning decisions.
- Delivered weekly intelligence briefs to senior leadership summarizing market trends, emerging risks, and competitive movements.

Sales Analytics & Revenue Growth

- Designed and managed the **end-to-end sales pipeline**, encompassing lead qualification, progression tracking, and conversion rate analytics.
- SQL and Advanced Excel-driven analysis directly contributed to a measurable **15% increase in client revenue**.
- Developed **Power BI dashboards** that consolidated multiple data streams, reducing reporting time by **40%** and saving approximately 20 hours weekly.
- Built predictive lead scoring models to priorities high-value prospects and improve outreach efficiency.

Core Skills

DATA & ANALYTICS

SQL — Advanced Queries, CTEs, Joins
Power BI — Dashboards, DAX Measures
Advanced Excel — Pivot, Vlookup, VBA
Data Mining & Cleansing
Web Scraping Automation

BUSINESS ANALYSIS

BRD / FRD Documentation
Requirements Gathering & Elicitation
UAT Planning & Test Case Management
Process Mapping & Optimization
Gap Analysis & Root Cause Analysis

SALES & GTM

End-to-End Pipeline Management
Lead Qualification & Scoring
Revenue Analytics & Forecasting
Competitive Intelligence

TECHNOLOGY

Python — BeautifulSoup, NumPy, Pandas
Reporting & Workflow Automation
HTML / CSS Fundamentals
Java (Fundamentals)
AWS Cloud — Certified Practitioner

LEADERSHIP & DELIVERY

Intern Training & Mentoring (20+)
SOP Creation & Process Documentation
Cross-functional Collaboration
Agile Methodology

Data Quality & Process Optimization

- Led a comprehensive CRM data governance program-me, improving data accuracy from **72% to 95% across 10,000+ records**, significantly enhancing pipeline visibility.
- Authored detailed **BRD and FRD documentation** for 6+ business initiatives, ensuring 100% on-time delivery and full stakeholder sign-off.
- Managed end-to-end **UAT cycles** covering 80+ test cases across multiple releases, achieving zero critical defects in production.
- Standardized data entry workflows and validation rules, reducing operational data errors by **30%** across CRM and billing systems.

Team Leadership & Capability Building

- Trained and mentored **20+ interns** across cohorts in SQL querying, Python scraping pipelines, CRM usage, and structured market research.
- Designed and implemented on-boarding SOP's that cut new hire ramp-up time by **30%** and ensured consistent quality from day one.
- Conducted weekly knowledge-sharing sessions on data analysis best practices and business analysis methodologies.
- Evaluated intern performance, provided structured feedback, and recommended top performers for full-time roles.

Key Projects

CRM Data Governance Overhaul — Avadhesh.co, 2024

Designed and implemented a multi-stage SQL-based anomaly detection and de-duplication framework to remediate 10,000+ CRM records. Established automated validation checks and ongoing monitoring, raising accuracy from 72% to 95% and enabling reliable pipeline forecasting for leadership. Reduced manual data correction effort by over 40%.

Automated Executive Reporting Suite — Avadhesh.co, 2024

Built a centralized Power BI reporting ecosystem consolidating data from CRM, billing, and customer support platforms. Replaced 5 disconnected manual Excel reports with a single live dashboard, saving approximately 20 hours of analyst effort per week and providing leadership with real-time KPI visibility across all client accounts.

Python Market Intelligence Pipeline — Avadhesh.co, 2024

Architect-ed an end-to-end web scraping and data processing pipeline using BeautifulSoup, NumPy, and Pandas. Automated collection of competitor pricing, product positioning, and market movement data across 10+ websites. Structured outputs fed directly into SQL databases, powering weekly GTM analysis reports for senior leadership.

Sales Lead Qualification Engine — Avadhesh.co, 2024

Developed a data-driven lead scoring model using SQL and Excel that ranked inbound and scraped leads by conversion likelihood. Integrated scoring outputs into the CRM pipeline, enabling sales teams to priorities outreach and improve contact-to-close efficiency by an estimated 20%.

Achievements

15% Revenue Growth
Delivered through SQL & Excel-driven sales pipeline analytics across client accounts

95% CRM Accuracy
Led data governance overhaul across 10,000+ records, up from 72%

40% Reporting Time Saved
Power BI dashboard suite automating 5 manual weekly reports

20+ Interns Trained
Mentored cohorts in SQL, Python scraping, CRM, and research

30% Fewer Errors
SOP-driven process standardization across data entry workflows
